Re: FY2021 Budget Reconciliation as of April 30, 2021

Reserve Funds Update

Debt Summary and Forecast

The following is an FY2021 Operating Budget update as of April 30, 2021. The FY2020 Financial Statement audit work has been completed and final document is pending in draft form; however, I have used the draft version, pending any last-minute changes, in my report below.

Please note, during the FY2021 budget process in the fall of 2020, revenue and expenditure estimations for the final months of FY2020 are needed to outline the spending plan for FY2021 as adopted in December. These estimations are based on current spending and unaudited financial data. The following is a summary of the FY2021 beginning cash and investments available, adjusted per the FY2020 audit draft and factors that contributed to the increases/decreases.

General Fund - 10:

- Beginning balances for FY2021 were +15%; adjusted net estimated unrestricted spending available at year-end FY2021 is \$265,000 +/-; an increase of \$265,000+/- from budget.
 - Additional incoming revenues in FY2020 related to COVID contributed to nearly \$100,000 of the increase.
 - FY2020 expenditures came in lower than estimated during the budget process.
- Through April 2021, 31.9% of budgeted revenues and 30.3% of budgeted expenditures have been realized.

Capital Improvement Fund – 19

- Beginning balances for FY2021 were <3%>; adjusted net estimated unrestricted spending available year-end FY2021 is \$1.3 million +/-; a decrease of \$6,700+/- from budget.
 - FY2020 expenditures came in higher than estimated due directly to required TIF transfers due to the increase in sales tax revenue within the TIF districts.
- Through April 2021, 30.1% of budgeted revenues and 30.3% of budgeted expenditures have been realized.

Transportation Fund -20:

- Beginning balances for FY2021 were +6%; adjusted net estimated unrestricted spending available year-end FY2021 is \$478,000+/-; an increase of \$253,000+/- from budget.
 - FY2020 revenues came in higher, and FY2020 expenditures came in lower than estimated during the budget process.
- Through April 2021, 24.2% of budgeted revenues and 12.8% of budgeted expenditures have been realized.

Water Fund - 30:

- Beginning balances for FY2021 were +14%; adjusted net estimated unrestricted spending available year-end FY2021 is \$265,000+/-; an increase of nearly \$265,000+/- from budget.
 - FY2020 revenues came in slightly higher, and FY2020 expenditures came in lower than estimated during the budget process.
- Through April 2021, 32.8% of budgeted revenues and 33.8% of budgeted expenditures have been realized.

Sewer Fund -35:

- Beginning balances for FY2021 were nearly the same as budgeted; estimated unrestricted spending available year-end FY2021 is \$3,500+/-, only slightly adjusted as budgeted.
 - FY2020 revenues and expenditures came in slightly higher than estimated during the budget process.
- Through April 2021, 30.8% of budgeted revenues and 29.2% of budgeted expenditures have been realized.

Ambulance Fund – 40:

- Beginning balances for FY2021 were +139%; adjusted net estimated unrestricted spending available year-end FY2021 is \$87,800+/-; an increase of nearly \$84,000+/- from budget.
 - FY2020 revenues came in higher, and FY2020 expenditures came in slightly lower than estimated during the budget process.
- Through April 2021, 35.1% of budgeted revenues and 33.7% of budgeted expenditures have been realized.

Lee C Fine Airport Fund – 45:

- Beginning balances for FY2021 were +123%; adjusted net estimated unrestricted spending available year-end FY2021 is \$171,000+/-; an increase of nearly \$167,000+/- from budget.
 - FY2020 revenues came in higher, and FY2020 expenditures came in lower than estimated during the budget process. This is mainly due to the timing of grant projects and direct related grants funding.
- Through April 2021, 4.2% of budgeted revenues and 3.2% of budgeted expenditures have been realized.

Grand Glaize Airport Fund - 47:

- Beginning balances for FY2021 were +31%; adjusted net estimated unrestricted spending available year-end FY2021 is \$21,400+/-; an increase of nearly \$19,000+/- from budget.
 - FY2020 expenditures came in lower than estimated during the budget process.
- Through April 2021, 19.9% of budgeted revenues and 27.0% of budgeted expenditures have been realized.

Component Units – Prewitt's Point TIF and the Dierbergs TIF Funds: The unrestricted funds net cash and equivalent availability for both TIF Funds were unchanged as funding for both flow through to pay respective debt service. Both funds experienced higher FY2020 revenues directly due to the increase in sales tax collection within the respective districts.

Fund Reserves

In 2017, the Board of Aldermen adopted the City's first Reserve Policy establishing fund reserves and specific target levels of reserves based on O&M averages and capital expenditures calculations for the General Fund, Transportation Fund, Water Fund, Sewer Fund, Lee C Fine Fund, and the Grand Glaize Fund.

The following are budgeted FY2021 and year-end estimated reserve levels post FY2020 audit draft.

Debt Service Reconciliation

The enclosed is an update on the City's Outstanding Debt with future year forecasting based on the current amortization schedules.

Based on past conversations with the Mayor and Board of Aldermen, there was interest in further conversations regarding any opportunities for us to pay debt off early to save on debt service costs.

Addition notes regarding Debt Service:

- Budget reflects debt service per amortization schedules. Actual bond payments occur prior to scheduled due dates. For example, bond due dates of January 1 (beginning of our fiscal year), cash payments will occur in prior fiscal year. All water and sewer bonds have a semi-annual payment schedules, January and July. 2020 TIF has a semi-annual payment schedule of May and November.
- 2) Water and sewer bonds may be called for full redemption and payment prior to maturity without consent of the bondholder on either by June 1 or December 1, plus accrued interest to the redemption date (per bond documents). An estimated minimum Sixty-day (60) notice to MoDNR is needed for such full redemption. For example, if intent is to fully redeem a bond on June 1 (prior to a July scheduled payment), notice to MoDNR would be needed no later than April 1. Further confirmation of timelines will be determined if such decision is made on a specific bond. Partial redemptions require consent of bondholder, additional notice to MoDNR (should said consent be given), and formal recalculations of amortization schedules by bondholder will be required; additional cost associated with partial redemption will apply.
- 3) Water and sewer bonds have a Debt Service Reserve Fund requirement. The final year for payment, any said reserves (if required to be held in the CIT Fund) are utilized for bond redemption. Each bond varies in said requirement.
- 4) Based on current sales tax collection activity and should said activity remain constant, the 2020 TIF Bonds are expected to pay off prior to FY2023.

DISADVANTAGE BUSINESS ENTERPRISE CONTRACT PROVISIONS

- 1. <u>Policy</u>: It is the policy of the U.S. Department of Transportation and the Local Agency that businesses owned by socially and economically disadvantaged individuals (DBE's) as defined in 49 C.F.R. Part 26 have the maximum opportunity to participate in the performance of contracts financed in whole or in part with federal funds. Thus, the requirements of 49 C.F.R. Part 26 and Section 1101(b) of the Transportation Equity Act for the 21st Century (TEA-21) apply to this Agreement.
- 2. <u>Obligation of the Engineer to DBE's</u>: The Engineer agrees to assure that DBEs have the maximum opportunity to participate in the performance of this Agreement and any subconsultant agreement financed in whole or in part with federal funds. In this regard the Engineer shall take all necessary and reasonable steps to assure that DBEs have the maximum opportunity to compete for and perform services. The Engineer shall not discriminate on the basis of race, color, religion, creed, disability, sex, age, or national origin in the performance of this Agreement or in the award of any subsequent subconsultant agreement.
- 3. <u>Geographic Area for Solicitation of DBEs</u>: The Engineer shall seek DBEs in the same geographic area in which the solicitation for other subconsultants is made. If the Engineer cannot meet the DBE goal using DBEs from that geographic area, the Engineer shall, as a part of the effort to meet the goal, expand the search to a reasonably wider geographic area.
- 4. <u>Determination of Participation Toward Meeting the DBE Goal</u>: DBE participation shall be counted toward meeting the goal as follows:
 - A. Once a firm is determined to be a certified DBE, the total dollar value of the subconsultant agreement awarded to that DBE is counted toward the DBE goal set forth above.
 - B. The Engineer may count toward the DBE goal a portion of the total dollar value of a subconsultant agreement with a joint venture eligible under the DBE standards, equal to the percentage of the ownership and control of the DBE partner in the joint venture.
 - C. The Engineer may count toward the DBE goal expenditures to DBEs who perform a commercially useful function in the completion of services required in this Agreement. A DBE is considered to perform a commercially useful function when the DBE is responsible for the execution of a distinct element of the services specified in the Agreement and the carrying out of those responsibilities by actually performing, managing and supervising the services involved and providing the desired product.
 - D. A Engineer may count toward the DBE goal its expenditures to DBE firms consisting of fees or commissions charged for providing a bona fide service, such as professional, technical, consultant, or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for the performance of this Agreement, provided that the fee or commission is determined by MoDOT's External Civil Rights Division to be reasonable and not excessive as compared with fees customarily allowed for similar services.
 - E. The Engineer is encouraged to use the services of banks owned and controlled by socially and economically disadvantaged individuals.
- 5. Replacement of DBE Subconsultants: The Engineer shall make good faith efforts to replace a DBE

Fig. 136.4.1 Contract

Revised 01/27/2016

Subconsultant, who is unable to perform satisfactorily, with another DBE Subconsultant. Replacement firms must be approved by MoDOT's External Civil Rights Division.

6. <u>Verification of DBE Participation</u>: Prior to final payment by the Local Agency, the Engineer shall file a list with the Local Agency showing the DBEs used and the services performed. The list shall show the actual dollar amount paid to each DBE that is applicable to the percentage participation established in this Agreement. Failure on the part of the Engineer to achieve the DBE participation specified in this Agreement may result in sanctions being imposed on the Commission for noncompliance with 49 C.F.R. Part 26 and/or Section 1101(b) of TEA-21. If the total DBE participation is less than the goal amount stated by the MoDOT's External Civil Rights Division, liquidated damages may be assessed to the Engineer.

Therefore, in order to liquidate such damages, the monetary difference between the amount of the DBE goal dollar amount and the amount actually paid to the DBEs for performing a commercially useful function will be deducted from the Engineer's payments as liquidated damages. If this Agreement is awarded with less than the goal amount stated above by MoDOT's External Civil Rights Division, that lesser amount shall become the goal amount and shall be used to determine liquidated damages. No such deduction will be made when, for reasons beyond the control of the Engineer, the DBE goal amount is not met.

- 7. Documentation of Good Faith Efforts to Meet the DBE Goal: The Agreement goal is established by MoDOT's External Civil Rights Division. The Engineer must document the good faith efforts it made to achieve that DBE goal, if the agreed percentage specified is less than the percentage stated. The Good Faith Efforts documentation shall illustrate reasonable efforts to obtain DBE Participation. Good faith efforts to meet this DBE goal amount may include such items as, but are not limited to, the following:
 - A. Attended a meeting scheduled by the Department to inform DBEs of contracting or consulting opportunities.
 - B. Advertised in general circulation trade association and socially and economically disadvantaged business directed media concerning DBE subcontracting opportunities.
 - C. Provided written notices to a reasonable number of specific DBEs that their interest in a subconsultant agreement is solicited in sufficient time to allow the DBEs to participate effectively.
 - D. Followed up on initial solicitations of interest by contacting DBEs to determine with certainty whether the DBEs were interested in subconsulting work for this Agreement.
 - E. Selected portions of the services to be performed by DBEs in order to increase the likelihood of meeting the DBE goal (including, where appropriate, breaking down subconsultant agreements into economically feasible units to facilitate DBE participation).
 - F. Provided interested DBEs with adequate information about plans, specifications and requirements of this Agreement.
 - G. Negotiated in good faith with interested DBEs, and not rejecting DBEs as unqualified without sound reasons, based on a thorough investigation of their capabilities.
 - H. Made efforts to assist interested DBEs in obtaining any bonding, lines of credit or insurance required by the Commission or by the Engineer.

- I.Made effective use of the services of available disadvantaged business organizations, minority contractors' groups, disadvantaged business assistance offices, and other organizations that provide assistance in the recruitment and placement of DBE firms.
- 8. <u>Good Faith Efforts to Obtain DBE Participation</u>: If the Engineer's agreed DBE goal amount as specified is less than the established DBE goal given, then the Engineer certifies that good faith efforts were taken by Engineer in an attempt to obtain the level of DBE participation set by MoDOT's External Civil Rights.

THIS EXTENSION TO THE MARCH 5, 1999, LEASE AGREEMENT, is made this	_day of
, 2021, by and between the MISSOURI DEPARTMENT OF NATU	RAL
RESOURCES ("Department") and the CITY OF OSAGE BEACH, MISSOURI ("City").	

WHEREAS, on or about March 5, 1999 the parties entered into a Land Use Lease Agreement ("Agreement"), of certain lands in Miller County, Missouri, for the operation of Lee C. Fine Memorial Airport; and

- Changed the initial term of the lease from 20 to 31 years, continuing through February 28, 2030
- Allowed the City to request five-year extensions of the Agreement to better enable the City to seek federal funding for the ongoing operational needs of the airport as most federal grant funding for airports requires property interests of at least 20 years
- Allowed the City, beginning on February 10, 2010 and every five years thereafter, to request five-year extensions of the Agreement at least 12 months prior to the extension date only after first receiving public consideration and comment

Department Comments and Recommendation:

On May 20th bids were open for this project. There was one bidder. Stockman Construction. The bid tab is attached.

This project will complete the rehabilitation of Mace Rd. This final phase will go from the Timber Ridge Apartment complex all the way out to Osage Beach Parkway. This project is under budget and as the City Engineer, Dave Van Leer explained at the previous board meeting, there is a likelihood that the sidewalk will be stopped right before the Fitz's Fishing property. This will reduce the value of this contract through a change order that will be issued at a later date.

Stockman Construction has a good history with the City. Their most recent work with the City includes Mace Road Phase 2A and they were recently awarded the Wren Lane Improvement project contract. I also checked their refences and found no problems.

I recommend approval.

City Attorney Comments:

Per City Code 110.230, Bill 21-33 is in correct form.

City Administrator Comments:

This construction project is for the final phase in reconstructing Mace Road. Mace Road reconstruction began with initial Phase 1 engineering in FY2017. Reconstruction Phase 1 began in FY2018. In FY2019, Phase 2 was split into two additional phases, with Phase 2a completed in FY2020. This requested contract is roughly a Five (5) month project and estimated completion is expected in November 2021. Exact contract completion date will be established once final contract is executed.

Excluding FY2020 carryover expenditures (budget amendment forthcoming), this project is within budget.

I concur with the department's recommendation.

AN ORDINANCE OF THE CITY OF OSAGE BEACH, MISSOURI, AUTHORIZING THE MAYOR TO EXECUTE CONSTRUCTION WITH STOCKMAN CONSTRUCTION CORP. FOR THE MACE ROAD PHASE 2B PROJECT IN AN AMOUNT NOT EXCEED \$914,519.83.

Since then the City has grown in purchasing activity and modified our Organizational Chart over the past several years. Our purchasing code and procedures are valuable when it provides a streamlined process for open and effective competition, an ethical and fair process, a method to ensure accountability, budget tracking, and transparent reporting, and ensures we are meeting the municipal legalities. PLANNING DEPARTMENT REPORT TO THE PLANNING COMMISSION

Hearing Date: May 11, 2021 Case Number: none

Applicant: Josh and Brooke McKay

Location: Osage Beach Road corridor

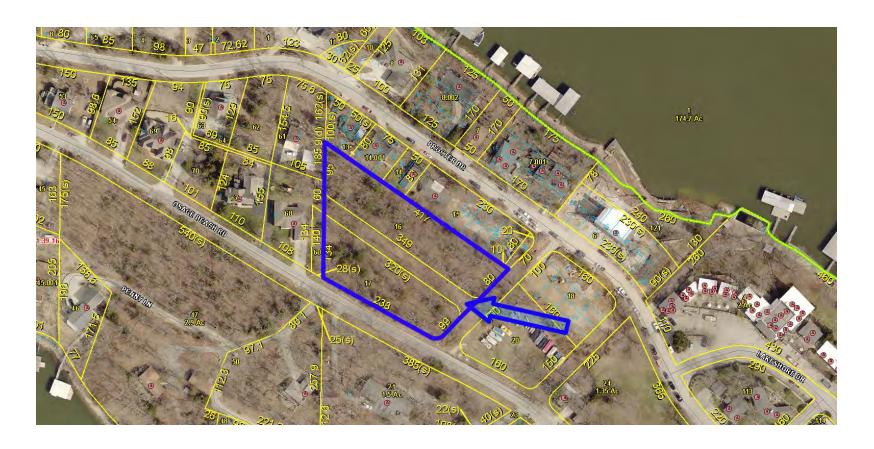

Petition: Vacation of an undeveloped property

Existing Uses: Vacant commercial property

Analysis:

1) The applicants own the land adjacent to the requested vacation property.

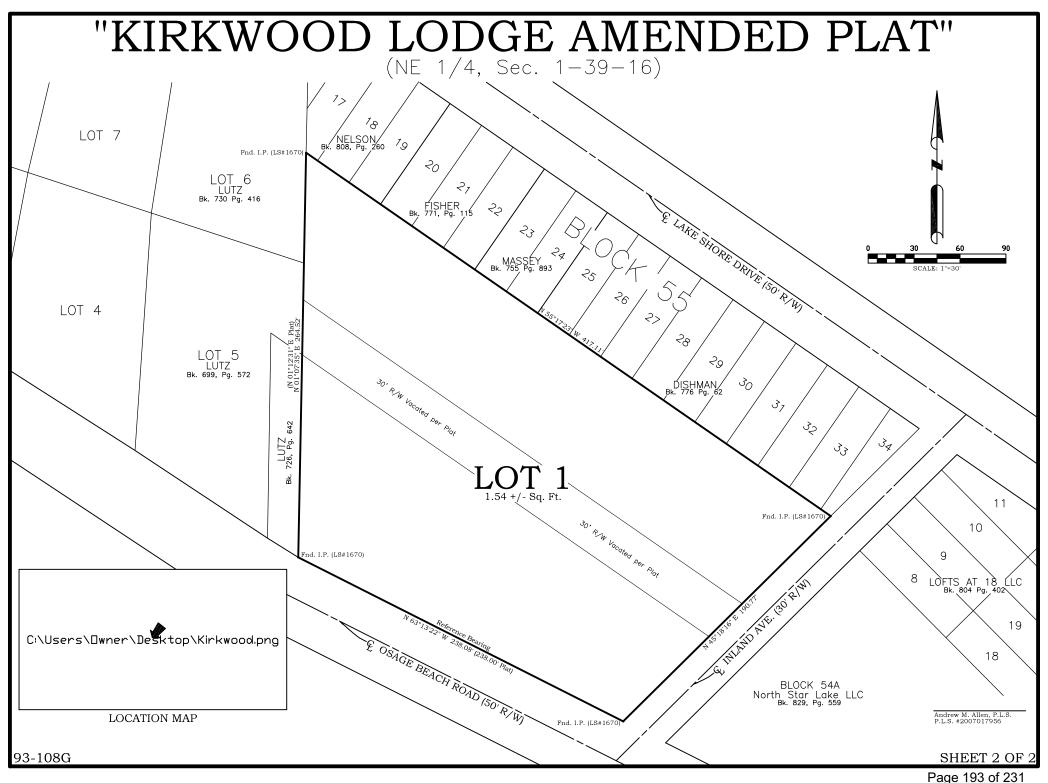

- 2) The applicants are asking that the City of Osage Beach vacate an undeveloped right of way that bisects their property which will give it greater development capacity.
- 3) There is no apparent service infrastructure currently in the ROW. However, easements for any infrastructure that is found to exist will need to be given if this request for vacation is approved.
- 4) This vacation is being done by plat which is the most efficient way to accomplish a vacation in which both properties that are adjacent to the subject ROW is owned by the same party.

Department Comments and Recommendation:

Bids for the 2021 Salt Bid were sent out in late April. The bid opening was on May 17th. The City received 6 bids this year. The low bid was from Independent Salt at a cost of \$81.99 per ton. Public Works is requesting to purchase 400 tons at a total cost of \$32,796.00. The budget for this purchase is \$40,000.00. The City has used this company to purchase salt several time in the past. Most recently in 2018. I also checked their references and found no problems.

I recommend approval.

City Attorney Comments:

City Administrator Comments:

This is a cooperative bid process we have utilized in the past with success and includes various surrounding public entities which assists in buying power. Individual entity bid price by vendor varies based on quantity and location.

I concur with the department's recommendation.

NextSite is a commercial development advisory firm that LOREDC (Lake of the Ozarks Regional Economic Development Council) and AmerenMO has partnered with to use data and market analysis, and services to attract new and commercial business to the LOREDC region; Camden, Miller, and Morgan Counties. NextSite specializes in research and market analysis, and identifies and connects opportunities to developers, tenant representatives, and end-users to develop new retail and commercial business. NextSite's proposal to LOREDC not only covers a scope of services for LOREDC's region, but in addition, includes seven selected cities within LOREDC's region to target. LOREDC is working with the selected cities, with a few of them already committing to the program.

AmerenMO and LOREDC have committee funds for the services to offset the cost for each targeted city, making the program more affordable. Each city will be asked to contribute a nominal financial commitment, at this time is approximately \$2,850 per year. The respective city procuring expansion/development through the efforts of NextSite will bare the additional fees specific to the city, defined as Success Fees outlined within the program. Success Fees are based on size of commercial development recruited and completed by NextSite.

Enclosed is information on the program. The intent of this discussion is to introduce the program and start discussion on Osage Beach's participation. It is the intent of LOREDC to have formal commitments from the targeted cities who wish to participate by end of July 2021.

Site Identification Model

NextSite has developed a proprietary site identification model that estimates the suitability of a community/site for any given retailer based on the propensity of that retailer to locate in similar areas. Our model analyzes over 250 retail chains with more being added every day. This tool, based on proven statistical methods and back tested on recent site decisions by multiple concepts, allows us to quickly identify markets and sub-markets that match existing locations of the target retailer/restaurant. This information becomes part of our pro-active outreach to developers, tenant reps and retailers.

Using Chipotle as an example, NextSite's algorithm first looks at the location characteristics of every open or coming soon Chipotle location. These parameters include radius-based population, average household income, segmentation, and distance to next nearest location to create a Chipotle profile. The algorithm then compares this profile to a set of over 1.6 million evenly distributed points throughout the country and gives each point a score based on that point's similarity to the average Chipotle location. These scores provide NextSite and our developer contacts target markets for potential Chipotle expansion.

The same process is used to identify potential sites for restaurants, service providers, retail and additional grocery concepts.

GREENVILLE, IL

A charming small town in Southwestern Illinois conveniently located 45 miles east of St. Louis on Interstate 70, the City of Greenville has a population of approximately 7,000. Residents of this county seat of Bond County enjoy many rural advantages-less congestion, pollution and crime-while still having access to the cultural, shopping, sports and other amenities of the St. Louis metropolitan area that stretches across the river into Illinois. Greenville embraces both a rich history and progressive economic growth stretching from a quaint downtown—where murals and historical plaques decorate buildings around the Courthouse Square—all the way to the industrial and commercial development along the I-70 corridor at the southern edge of the City.

"Many of the connections we have made with developers and tenant reps have been the direct result of working with Chuck and the NextSite team. The City of Albertville is thankful for the retail growth opportunities we have had over the last few years and NextSite continues to be a great partner in assisting the city with all our retail recruiting efforts. It is reassuring to know that even when I am not in the room – the folks at NextSite are vetting opportunities for our city with their large network of developer and tenant rep relationships."

RE: NextSite Market Data & Commercial Recruitment Program

Cities of:

Camdenton, Eldon, Lake Ozark, Laurie, Osage Beach, Sunrise Beach, Versailles

The Lake of the Ozarks Regional Economic Development Council (LOREDC) is working with the firm NextSite through its arrangement with AMEREN to perform market analysis and marketing of the Lake of the Ozarks market region. Representatives and board members of LOREDC have contacted each of the cities listed to provide a copy of the NextSite Proposal, and most cities participated in preparatory informational meetings with representatives of NextSite or LOREDC.

The term of the NextSite Program in the LOREDC area is three years.

The benefits to be delivered to the participants include:

- At least one on-site meeting with a NextSite staff member to discuss the city's goals and available development sites and available buildings suitable for commercial, office, and institutional tenants.
- Access to the full LOREDC study data and the individual city's data (electronic for continuing use by the city).
- The opportunity to have special business segment, district, or site studies conducted by NextSite.
- The city's properties and sites will be included in NextSite's full national marketing program, including the trade show schedule and targeted marketing programs aimed at suitable commercial, office, and institutional users.
- The city (and LOREDC) will receive status reports from NextSite, no less than quarterly, recapping the marketing activity that included the city's sites.

To assist NextSite to be most effective in marketing, the City agrees to name a primary contact person and make them available to NextSite to provide information necessary to fully inform prospective tenants and developers.

The cost for the Next Site program has been subsidized by Ameren, so:

- The total annual fee for all cities is \$30,000. Over a 3-year program, the fee will be \$90,000.
- LOREDC has agreed to pay the first \$10,000 each year, for a total of \$30,000 over the 3-year program.
- Each City is responsible for a proportional share of the remaining \$20,000 each year. This amount is \$2,850 per year for three years, for a total of \$8,550.
- Should Next Site marketing program be the direct procuring cause of a project in your city, the City will be responsible to pay NextSite the Success Fee. Success Fee is defined in the NextSite Proposal, along with the rates payable for various types of buyers/tenants. According to NextSite representatives, the Success Fee: a) is not payable on any expansion

of a business already in operation in the city; and b) is payable when the new business begins operation.

The Board of Directors of LOREDC has spent a several months doing due diligence on the NextSite firm, the program, and ensuring that it fits the needs of our market area. The members of the Board believe this is a very good proposal with significant opportunity for several new businesses locating in the Lake of the Ozarks area. Consequently, we stepped up to pay one-third of the direct costs of research and execution of the marketing plan. We hope you agree to join us in giving our cities another channel to promote growth and jobs throughout the Lake of the Ozarks, Missouri.

Sincerely,

LOREDC Board of Directors
